

Product: AtlasDB

Version: 4.1

AtlasDB supports **row-level encryption** using AES-256. Encryption keys are rotated automatically every **90 days**.

Backups run **hourly incremental** and **daily full snapshots**, retained for **35 days**. Customers on the Enterprise plan may request custom retention periods.

AtlasDB is compliant with **SOC 2 Type II** and **ISO 27001**. HIPAA support is available under a Business Associate Agreement.
